

6 April 2016 – Wednesday**16.00-17.00****OPENING COCKTAIL****EXHIBIT AREA****17.00-17.45****OPENING SESSION****HALL A****17.45-18.30****OPENING CONFERENCE****HALL A****18.30-19.15****CONCERT****HALL A****7 April 2016 – Thursday****08.30-10.00****PANEL - 1****HALL A**

ITN & TICS JOINT MEETING: IC MANAGEMENT IN THE LIVER TRANSPLANT PROCESS

- SCCM 2015 Management of the Potential Donor Guidelines
- Other organ systems in liver failure
- Role of intensive care expert in liver transplants

PANEL - 2**HALL B**

IMAGING AT THE INTENSIVE CARE UNIT

- ECHO in volume optimization
- Lung USG
- How to optimize the lung CT scan for ARDS ?

PANEL - 3**HALL C**

INFECTION -1

- MDR problem at the ICU
- Antibiotic therapeutic drug monitoring: how to use it ?
- Update on controversies about selective digestive decontamination

PANEL - 4**HALL D**

THROMBOEMBOLISM

- Diagnosis of venous thromboembolism
- Medical and mechanical prophylaxis
- Thromboembolic treatment
- Multidisciplinary pulmonary embolism intervention teams

10.00-10.30**COFFEE BREAK**

10.30-12.00	PANEL - 5	HALL A
	GSA & TICS JOINT MEETING	
	<ul style="list-style-type: none"> - The appropriate approach to control health care associated infections and sepsis - The Turkish approach to improve sepsis awareness management - English approach to quality improvement in sepsis management - Why we need a global approach to sepsis control ? 	
	PANEL - 6	HALL B
	MECHANICAL VENTILATION	
	<ul style="list-style-type: none"> - Practical use of lung mechanics at the bedside - How effective is the 'high-flow' in hypoxemic respiratory failure ? - Prone position and neuromuscular blockers in ARDS 	
	PANEL - 7	HALL C
	ABDOMEN AT THE INTENSIVE CARE UNIT	
	<ul style="list-style-type: none"> -Management of abdominal compartment syndrome: prevention is the key - When to operate? - Infected cases of acute pancreatitis and complicated abdominal infections 	
	PANEL - 8	HALL D
	SPECIAL PATIENT GROUPS AT THE ICU	
	<ul style="list-style-type: none"> - Intensive care needs of the hemato-oncology patients - Intensive care process of post-operative pediatric patients - Intensive care of obstetric patients - Differences in therapeutic management of geriatric patients 	
12.10-13.00	SATELLITE SYMPOSIUM – 1	HALL A
	CONFERENCE - 1	HALL B
	THE ROLE OF LIVER ASIST DEVICES IN LIVER FAILURE	
	ORAL PRESENTATIONS SESSION - 1	HALL C
	ORAL PRESENTATIONS SESSION - 2	HALL D
13.00-14.00	LUNCH	
14.00-15.30	ROUND TABLE - 1	HALL A
	WHERE DO WE STAND IN ICU TEACHING?	
	<ul style="list-style-type: none"> - Current situation of specialist education - Intensive care sub-specialization curriculum - Assessment and evaluation in education - The Netherland model in ICU teaching - Gaps and problems in the field, expectations and recommendations 	

14.00-15.30

PANEL - 9

HALL B

ITN & TICS JOINT MEETING: ITN PROJECT

- Introduction of the ITN project
- Early results of ITN
- Contribution of TICS to ITN Project

PANEL - 10

HALL C

FLUIDS AND ENDOTHELIUM

- The glycocalyx and junctions: new insights in to the endothelial cell barrier
- Fluid preference: dose it make any difference?
- Volume optimization in severe sepsis

PANEL - 11

HALL D

LABOUR HEALTH AND SAFETY AT THE ICU

- Radiation safety at the ICU
- Psychological threats at the ICU
- Infection risk for ICU workers

15.30-16.00

COFFEE BREAK

16.00-17.30

PANEL - 12

HALL A

NUTRITION – 1

- Non-nutritional benefits of enteral nutrition
- Enteral nutrition and diarrhea
- Parenteral nutrition in critical patients: When?

PANEL - 13

HALL B

SOCIETY OF PALLIATIVE CARE: The new Regulation

- Philosophy of palliative care
- Where do we stand in palliative care?
- Legal and ethical problems in palliative care
- Differentiation of palliative care – intensive care

ROUND TABLE - 2

HALL C

USE OF ANTIBIOTICS

- Early start-up
- Is de-escalation always possible?
- Biomarkers in guidance for antibiotic treatment
- Antibiotic administration strategies
- Antibiotic dosing in extracorporeal therapy
- Application by inhalation – nebulization

16.00-17.30	PANEL - 14	HALL D
	AN UPDATE ON ICU NURSING	
	<ul style="list-style-type: none"> - Roles of ICU nurses – labor planning of nurses - Management in nursing - Distribution, teaching and certification of ICU nurses in Turkey - Keeping the qualified nurse at the ICU 	
17.40-18.30	MEET THE EXPERT – 1	HALL A
	MEET THE EXPERT – 2	HALL B
	CONSUMPTION COAGULAOPATHY	
	MEET THE EXPERT – 3	HALL C
	MEET THE EXPERT – 4	HALL D

8 April 2016 – Friday

08.30-10.00	PANEL - 15	HALL A
	HEMODYNAMIC MONITORING	
	<ul style="list-style-type: none"> - Hemodynamic coherence and the rational for monitoring the microcirculation - Hemodynamic monitoring: concepts, indications and risks - Evolving trends in hemodynamic monitoring 	
	PANEL - 16	HALL B
	TOXICOLOGY	
	<ul style="list-style-type: none"> - Pharmacovigilance at intensive care unit - Hyperoxia and oxygen toxicity - Agenda of the day: "Intoxication with alcohol" - New approaches in treatment of intoxication 	
	PANEL - 17	HALL C
	ENDOCRINAL PROBLEMS IN CRITICAL PATIENTS	
	<ul style="list-style-type: none"> - Hidden danger of hypothyroidism - Glucose management - Critical illness-related corticosteroid insufficiency (CIRCI) 	

08.30-10.00	PANEL - 18	HALL D
	<p>SEDATION, ANALGESIA, DELIRIUM</p> <ul style="list-style-type: none"> - Do I suffer from delirium at ICU? - Pain assessment of patients unable to speak - Sleep and sleep disorders at intensive care unit 	
10.00-10.30	COFFEE BREAK	
10.30-12.00	PANEL - 19	HALL A
	<p>"ARTIFICIAL INTELLIGENCE" IN DECISION MAKING</p> <ul style="list-style-type: none"> - Non-linear dynamics at intensive care unit - Identification of length of stay and mortality through artificial nerve networks - The critical role of Patient Data Management Systems in improving safety and quality in the ICU environment 	
	PANEL - 20	HALL B
	<p>PULMONARY HYPERTENSION</p> <ul style="list-style-type: none"> - Pulmonary hypertension in critical patients - Mechanical ventilation - Treatment modalities 	
	PANEL - 21	HALL C
	<p>CONTROVERSIAL ISSUES IN CEREBRAL PROTECTION - 1</p> <ul style="list-style-type: none"> - Transcranial Doppler in management of intracranial pressure - Role of decompression surgery - Microdialysis 	
	PANEL - 22	HALL D
	<p>TOTAL QUALITY MANAGEMENT AT INTENSIVE CARE UNIT</p> <ul style="list-style-type: none"> - Monitoring of conformity with the clinical guidelines - Which quality monitoring indicators should be used at ICU ? - Common mistakes at ICU, attempts to prevent such mistakes, reporting system - How to accredit ICU's ? 	
12.10-13.00	SATELLITE SYMPOSIUM - 2	HALL A
	CONFERENCE - 2	HALL B
	<p>LESSONS LEARNED FROM RECENT SEPSIS TRIALS AND THEIR EFFECTS ON GUIDELINES</p>	
	ORAL PRESENTATIONS SESSION - 3	HALL C
	ORAL PRESENTATIONS SESSION - 4	HALL D
13.00-14.00	LUNCH	

14.00-15.30	PANEL - 23	HALL A
OBESE PATIENTS AT INTENSIVE CARE UNITS		
<ul style="list-style-type: none"> - The survival paradox - Nutrition therapy - Mechanical ventilation 		
PANEL - 24		
INFECTION -2		
<ul style="list-style-type: none"> - Tropical illness at ICU (Malaria, Leptospirosis) - Candida biofilm - Antibiotic stewardship 		
PANEL - 25		
CONTRIBUTIONS BY NEW VENTILATION MODES		
<ul style="list-style-type: none"> - NAVA - PAV - Intellivent ASV - Biphasic modes 		
PANEL - 26		
RENAL REPLACEMENT THERAPY		
<ul style="list-style-type: none"> - Timing, extended indications, doses - Modalities and hybrid therapies - Anticoagulation - Complications 		
15.30-16.00	COFFEE BREAK	
16.00-17.30	PANEL - 27	HALL A
FRIDAY'S NIGHTMARE		
<ul style="list-style-type: none"> - Severe hypoxemia - Severe hypotension - Acute blood loss 		
PANEL - 28		
SEPSIS		
<ul style="list-style-type: none"> - Immune system changes - Use of biomarkers in evaluating immune changes in sepsis - Hemophagocytic Syndrome 		
PANEL - 29		
NUTRITION - 2		
<ul style="list-style-type: none"> - The role of nutrition to sustain anabolism - Metabolism and protein requirements in critical patient - Customized nutrition in the elderly patient 		

16.00-17.30	PANEL - 30	HALL D
	VOLUME REPLACEMENT IN NON-SEPTIC PATIENT	
	<ul style="list-style-type: none"> - Head trauma - Post-major surgery - Burns - Crush 	

17.40-18.30	MEET THE EXPERT - 5	HALL A
	MEET THE EXPERT - 6	HALL B
	ERC 2015 Guideline	
	MEET THE EXPERT - 7	HALL C
	MEET THE EXPERT - 8	HALL D

9 April 2016 – Saturday

08.30-10.00	PANEL - 31	HALL A
	OUR ICU'S WITH THE DATA OF MINISTRY OF HEALTH	
	<ul style="list-style-type: none"> - Results of Medical Assessment of Intensive Care Units in Turkey - Situation of Turkey in terms of Brain Death and Organ Transplant - Cadaveric Kidney Transplant Outcomes according to Turkish National Organ and Tissue Information System 	
	ROUND TABLE - 3	HALL B
	FAMILY SUPPORT AT INTENSIVE CARE UNIT	
	<ul style="list-style-type: none"> - The synergy model - Family participation in decision making – family's view during discharge to home - Psychological support models for ICU patients families - Impact on treatment success 	
	PANEL - 32	HALL C
	CONTROVERSIAL ISSUES IN CEREBRAL PROTECTION - 2	
	<ul style="list-style-type: none"> - Ischemic brain injury: early diagnosis and treatment - Slowing down brain's metabolic rate: Hypothermia - Slowing down brain's metabolic rate: Pharmacological approach 	
08.30-10.00	PANEL - 33	HALL D
	ARE WE READY FOR DISASTER SCENARIOS?	
	<ul style="list-style-type: none"> - Blast injuries - Chemical, Biological, Radioactive, Nuclear (CBRN) - Epidemics (Ebola, MERS) - Our experiences with cases 	
10.00-10.30	COFFEE BREAK	

10.30-12.00	ROUND TABLE - 4	HALL A
	MALPRACTICE AND CONSENT FORMS	
	<ul style="list-style-type: none"> - Pediatric cases at adult intensive care unit - Those responsible for the delay in diagnosis and transfer of critical patients at emergency service - Customized consent form? 	
	PANEL - 34	HALL B
	APPROACHES TO POST RESUSCITATION	
	<ul style="list-style-type: none"> - Sepsis-like syndrome - Cardiovascular approach - Neurological approach - Identifying the prognosis 	
	PANEL - 35	HALL C
	REHABILITATION	
	<ul style="list-style-type: none"> - Early mobilization - Pulmonary rehabilitation (coughassist) - Dysphagia therapy (TENS, food viscosity) 	
	PANEL - 36	HALL D
	ITN & TICS JOINT MEETING	
	<ul style="list-style-type: none"> - The ITN project since the beginning and the role of intensive care among the stakeholders - Intensive care during the organ transplant process - Intensive care during organ transplant coordination process - Pros/Cons of intensive care in terms of the process 	
12.10-13.00	SATELLITE SYMPOSIUM - 3	HALL A
	CONFERENCE - 3	HALL B
	<ul style="list-style-type: none"> - Lung Recruitment manouvers: in who, how and when to do it? 	
	ORAL PRESENTATIONS SESSION - 5	HALL C
	ORAL PRESENTATIONS SESSION - 6	HALL D
13.00-14.00	LUNCH	
14.00-15.30	PANEL - 37	HALL A
	ARE HEART AND THE LUNGS ALLIES OR ENEMIES?	
	<ul style="list-style-type: none"> - Strategies for improving cardiovascular status - Can the cardiac function be improved with ventilator settings? - Chaos at the clinic: interactive case presentation 	

14.00-15.30	PANEL - 38	HALL B
	RAPID RESPONSE TEAM: RAPID ACTION SYSTEMS	
	<ul style="list-style-type: none"> - System installation and advantages - Practical examples: Sepsis, Shock - Role of the intensive care specialist in the system 	
	PANEL - 39	HALL C
	HEART RATE CONTROL IN CRITICAL PATIENT	
	<ul style="list-style-type: none"> - Significance of heart rate control - Beta blockage in cerebral pathologies - Beta-adrenergic modulation in sepsis 	
	ROUND TABLE - 5	HALL D
	USE OF ANTIBIOTICS AND OUTCOMES AT THE INTENSIVE CARE UNITS: HOW SHOULD THE NEW STRATEGY BE?	
	<ul style="list-style-type: none"> - Republic of Turkey Ministry of Health - Republic of Turkey Social Security Institution - Turkish Society of Intensive Care - Supreme Court 	
15.30-16.00	COFFEE BREAK	
16.00-17.30	PANEL - 40	HALL A
	SATURDAY NIGHT FEVER	
	<ul style="list-style-type: none"> - Approach to new onset fever - Distinction with central fever - Empirical antibiotic treatment 	
	PANEL - 41	HALL B
	RATIONAL DRUG USE	
	PANEL - 42	HALL C
	APPROACH TO WOUND AT INTENSIVE CARE UNIT	
	<ul style="list-style-type: none"> - Pressure ulcers - Incontinence dermatitis - Wound therapy 	
	ROUND TABLE - 6	HALL D
	5W1H AT INTENSIVE CARE UNIT	
	<ul style="list-style-type: none"> - What is intensive care? - How to do the charging - Where should be an intensive care unit? - Why do we need intensive care? - When to apply to intensive care - Who is an intensive care specialist? 	
17.40-18.00	CLOSING SESSION	HALL D
18.00-18.30	TICS JOURNAL AND SEPSIS NETWORK MEETING	HALL D
